SUMMARY OF THE REASONS FOR DECISION:

The DVD entitled *Mr. Moon's Public Perversions 2: Sex In The Middle Of Hollywood* is classified as:

Objectionable except if the availability of the publication is restricted to persons who have attained the age of 18 years.

This classification is primarily due to the manner in which the publication deals with matters of sex, in the form of explicitly depicted sexual activity that is intended to sexually arouse the viewer.

The publication is a DVD version of a video recording previously classified by the Classification Office. The video recording of the same name (publication reference no. 2014) was classified as objectionable except if the availability of the publication is restricted to persons who have attained the age of 18 years. This classification decision was registered on 16 January 2001. The version of the feature on the DVD appears to be identical to the video version.

Along with the feature, the DVD contains a number of additional moving image and still components. The manner in which matters of sex are treated within these extra components is comparable to the feature, and there is no reason to give the DVD version a different classification to the video recording.
